**Performance for the 12 months ending 31 Dec 2022**

- Net (loss)/profit after tax US\$104.9M
- Net profit after tax excluding significant items of US\$109.3M
- AWAC twelve month alumina production of 11.8M tonnes
- Basic EPS US cents 3.6
- Dividends paid to shareholders – 4.2 US cents
- Dividends and distributions paid to Alumina US\$360.6

**Operations**

AWAC's operations span four continents. The integrated global network strategically positions AWAC to supply alumina to the world smelting markets, with options to expand low-cost production facilities in the future.

AWAC has interests in 6 alumina refineries and 5 bauxite mines and also operates an aluminium smelter in Victoria, Australia.

**AWAC alumina production**

Millions of tonnes

**AWAC alumina growth projects**

- In December 2009, Alcoa Inc and Ma'aden entered into an agreement setting forth terms of a joint venture between them to develop a fully integrated aluminum complex in the Kingdom of Saudi Arabia. AWAC has a 25.1% economic interest in the bauxite mine and alumina refinery only. The mine has an initial capacity of 4.0 million metric tonnes per year and the refinery an initial capacity of 1.8 million metric tonnes per year. The refinery realised it's nameplate capacity (based on annualised run rate) in December 2017. In 2022, AWAC's portion of alumina production was 444,000 tonnes.

**Strategy for shareholders**

Alumina Limited's strategy is to invest in the leading bauxite and alumina business in the world, Alcoa World Alumina and Chemicals (AWAC). To achieve this Alumina Limited commits to maximising long-term shareholder returns by:

- Working together with Alcoa on the strategic direction of AWAC
- Ensuring stewardship and governance oversight of the AWAC investment
- Providing transparency into the business performance
